Clash of Titans

People created war machines and gave them artificial intelligence, believing that now machines will fight instead of people. And the machines turned out to be so unstoppable and powerful that they were called the Titans. But the Titans were too far from human vanity and ambition, they were not interested in diplomacy and negotiations. They were created to fight. And they unleashed the most destructive war on the planet. A war against their creators. Against people.

Zombie Dawn - Chernobyl

TOP GAME

Zombies... There were so many of them in just one night! Nobody believed that it was possible, but now there are no people, who could laugh or say that this is complete nonsense. They are eaten, torn to shreds, killed, like hundreds of other unlucky citizens. You survived, so far survived. In your hands you have weapon and, probably, strong nerves, if you haven't still huddled under the bed because of horror and don't call Mommy.

Ball Sort Puzzle

If you like riddles and puzzles, then this game will definitely appeal to you. These balls look and sound like real glass. It is so nice to shift them from one place to another that a separate game about it could be developed. Train your brain and sort the glass balls so that each tube contains only balls of the same color. There is one important rule: balls can only be moved to an empty tube, or to balls of the same color. Many exciting levels are waiting for you, and in order to complete them all, you'll need to work hard.
